

## Options for Dendro DSS2

### Customize the DSS2 for your requirements

*The Dendro DSS2 truck lift comes with several options to enhance the already versatile lift*

<p><b>Custom RAL Colours</b></p> <p>You can choose a combination of any two RAL colours to make the lift a part of your team</p>	
<p><b>Fork adapters with magnets</b></p> <p>The adapters allow access to the "dog bone" on the lower side of the forks. They are easily attached with strong magnets</p>	
<p><b>Scratch Protection for forks</b></p> <p>Protect the paint on your forklifts and stackers with vinyl scratch protection in the lifting pockets</p>	
<p><b>DSS2 &amp; DSS3 Lifting Tray 2.0</b></p> <p>Upgrade your DSS2 lift with our new adapter to lift smaller vehicles up to 1000kg with ease. The compact design allows for safe and efficient lifting of non-forklift vehicles, making your DSS2 even more versatile</p>	
<p><b>DSS2 &amp; DSS3 Mover 2.0</b></p> <p>The DSS2 Mover features a practical pump handle that makes it easy to move the DSS2. This option allows the user to effortlessly move the lift manually</p>
