

Options for Dendro DSS2

Customize the DSS2 for your requirements

The Dendro DSS2 truck lift comes with several options to enhance the already versatile lift

<p>Custom RAL Colours You can choose a combination of any two RAL colours to make the lift a part of your team</p>	
<p>Fork adapters with magnets The adapters allow access to the "dog bone" on the lower side of the forks. They are easily attached with strong magnets</p>	
<p>Scratch Protection for forks Protect the paint on your forklifts and stackers with vinyl scratch protection in the lifting pockets</p>	
<p>DSS2 & DSS3 Lifting Tray 2.0 Upgrade your DSS2 lift with our new adapter to lift smaller vehicles up to 750 kg with ease. The compact design allows for safe and efficient lifting of non-forklift vehicles, making your DSS2 even more versatile</p>	
<p>DSS2 & DSS3 Mover 2.0 The DSS2 Mover features a practical pump handle that makes it easy to move the DSS2. This option allows the user to effortlessly move the lift manually</p>
